**Subject :** RE: Placement Help  
**To :** PRINCIPAL VTI ROHTAK <vtirohtak@hry.nic.in>

8/24/20  
Dated 19-10-20

Polite reminder.

These are Online Mock Tests for placements & can be rolled out to all your students at their homes from their mobile phones. They do not just prepare but help them getting jobs via Youth4work platform.

Please allow me to give a demo online and manage this completely for your students.

Awaiting Response/call , Archna ( 91 - 9999 728 323 )

**Subject:** Pre-Placement Preparation Help

Hope you are keeping Safe.

Just wanted to check if your college students are prepared and ready for the upcoming placement Tests/Interviews?  
If no, then Youth4work's Pre-Placement solution can help you.

Youth4work has tie ups with MHRD/AICTE and have been officially recommended by them too. Many colleges across India are using the solution for their students.

We, at youth4work, being in this sector for years now, understand the process and the importance of having a successful recruitment process for any college.

- It all starts with training your students in the right direction.
- Technical and Non-Technical pre-placement training.
- Improving their academic scores through series of assessment programs and preparing various mock exercises.
- Recognizing the recruitment techniques by interacting with the industry and preparing students accordingly.

As we know, students need to crack Aptitude Exams and various other tests depending on the companies recruiting. The test may vary based on the positions students are applying for, also there are a few tests specific to education streams.

Hope you are keeping Safe.

Just wanted to check if your college students are prepared and ready for the upcoming placement Tests/Interviews?

If no, then Youth4work's Pre-Placement solution can help you.

Youth4work has tie ups with MHRD/AICTE and have been officially recommended by them too. Many colleges across India are using the solution for their students.

We, at youth4work, being in this sector for years now, understand the process and the importance of having a successful recruitment process for any college.

- It all starts with training your students in the right direction.
- Technical and Non-Technical pre-placement training.
- Improving their academic scores through series of assessment programs and preparing various mock exercises.
- Recognizing the recruitment techniques by interacting with the industry and preparing students accordingly.

As we know, students need to crack Aptitude Exams and various other tests depending on the companies recruiting. The test may vary based on the positions students are applying for, also there are a few tests specific to education streams.

The Youth4work's **Pre-placement solution helps you to take online test of your students** in the formats that MNCs actually do. These tests are used by most the companies for their recruitment process. There are various tests for coding skills, Math skills, English language skills, and critical thinking skills. Similarly, there are other tests available for other disciplines.

This Youth4work Assessment Program will help:

- Bridge the gap that currently exists between the industry and the fresh professionals for recruitment purposes.
- Build confidence among students.
- Make them prepared for further training and placement sessions.
- Last but not the least, these skill tests will not only help students get a campus recruitment but this will also help them in their personal and professional life.

Campus placement is one of the most important steps in your student's career. Good placement from your college can mean a Good Brand Name for you. Therefore, please make use of our pre-placement solution to make it a success. Give your students the exposure and get them placement ready.

Please reply/call @**9999728323** for an online demonstration
